but has little 'voice' in its management.

Box C

These are stakeholders with high influence. They can affect the project outcomes, but their interests are not necessarily in line with the overall goals for which the community intends to manage the forest. They might be County Officials or economic group, who can exercise considerable discretion over general land resource uses, including forests. This could mean that these stakeholders may be a source of significant risk, and they will need careful monitoring and management.

Box D

The stakeholders in this box have low influence on the community forest management. They are of low importance to the community forest objectives. Therefore, they may require limited monitoring or evaluation, since they are of low priority.
